Docket No. 98N-1265

Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: *I use compounded medications and my quality of life and health are back to normal. The Rx my doctor originally prescribed was unacceptable because a component in it was peanut oil - I am allergic to peanuts. My compounded medications alleviates the "naughty" symptoms of menopause and I feel great. Don't take the option away from me and many others.*
